## **Explanation of Tiers**

A tier level approach was designed to give chapters an incentive to turn in forms and reports about the activities it conducts. It gives chapters a way to highlight their program and gives credit for all activities done throughout the year.

An Accredited Chapter is a chapter that is operationally sound. It functions within all the guidelines of the national Fraternity. A chapter can be an Accredited Chapter by turning in 100% of all forms in the first tier with at least 95% of those items approved (correctly completed and submitted on time).

A Chapter of Recognition is a chapter that is operationally sound and has a well-rounded program that focuses on Alumni, Faculty, and New Brothers. A chapter can be a Chapter of Recognition by achieving Accredited Chapter plus completing the requirements for the second tier.

A Chapter of Excellence is a chapter that is operationally sound with a well-rounded program that focuses on larger scale events and national Fraternity promotion. A chapter can be a Chapter of Excellence by achieving Accredited Chapter and Chapter of Recognition and also completing the requirements for the third tier.

The best way to achieve the different tiers is to decide as a chapter or an executive committee which level you want to strive for and then set it as a chapter goal for the following year. Submit forms throughout the year to achieve your goal and keep the chapter regularly updated by sharing your progress report at chapter meetings. The chapter does not need to complete all Accredited Chapter requirements in order to be able to submit items for the other tiers. This means the chapter should go ahead and submit items for Chapter of Recognition and Chapter of Excellence throughout the year even if it will not reach a higher level. Take the philosophy of always submitting something for every event and you will easily obtain your goal.

The Chapter Management Program is divided into categories on all three tiers. The categories include the following:

- Alumni/Faculty
- Awards
- Chapter Management
- Financial
- Historical
- Membership
- National Involvement/Fraternity Support
- Pledging/Initiation
- Professional/Service Activities

Information regarding each tier's requirements, officer responsibility and more is detailed in this guide.

## **Reports**

The Chapter Management Program is easy to access on the web with everything in one place. The chapter's management report is color-coded (for Accredited Chapter level only) to help show the "health" of the chapter and point out problem areas for chapters, National Leaders, and Central Office Staff.

- If the item was received on time and it is approved, it will be GREEN.
- If the item was received but late, it will be ORANGE.
- If the item was received but not approved or pending approval, it will be YELLOW.
- If the item was not received and it is past the deadline, it will be RED.

All reporting is online for your convenience and is automatically updated as you submit CMP forms via the web. Manual submissions such as payments, or review of items such as the pledge program, are marked as approved on your CMP account once they are processed by Central Office staff.

The report options available include:

Detailed Chapter Health Report (for your own chapter) including reports for Accredited Chapter, Chapter of Recognition, and Chapter of Excellence

[Provincial/Regional/National Reports](#) (all chapters listed in alphabetical order by Greek name)

\*\* Chapter members, National Fraternity volunteer leaders (including the Board of Directors, Regional Vice Presidents, District Directors, and Chapter Advisors) and staff also have access to these reports. \*\*

## Chapter Management Program (CMP)

The [Chapter Management Program](#) (CMP) is a three-tiered program that establishes clear guidelines and operational requirements for all chapters. Collegiate chapter officers can track requirements and deadlines and submit necessary items through [the Hub](#). Chapters are expected to reach the first tier, Accredited Chapter, and are recognized for additional achievements when reaching Chapter of Recognition and Chapter of Excellence.

## Professional and Service Events Counting Toward Multiple Tiers

When the chapter submits a professional or service event, it has the option of choosing if the event qualifies for a Chapter of Recognition or Chapter of Excellence item.

**For example:** if an alumni member presents a professional event, the chapter can *also* mark it as a professional event presented by an alumni member. In this case, the chapter would get credit for one out of the seven required professional events for Accredited Chapter and credit for the Chapter of Recognition professional event presented by one or more alumni members.

The chapter is limited to using one event to qualify for two upper tier items.

**For example:** if an alumni member presents at a chapter sponsored campus wide professional event, the chapter will get credit for one out of the seven required professional events for Accredited Chapter, credit for Chapter of Recognition professional event presented by one or more alumni members, and credit for the Chapter of Excellence sponsored/co-sponsored campus professional event. However, if this event was co-hosted with another chapter, the chapter would need to choose two of the three options to receive credit.

## How to Submit CMP Items

Most CMP items are submitted online. Payment items must be paid online or paid with a check mailed to the Central Office. Some items are automatically approved when items are submitted via other processes.

### Online Submissions

Most CMP items are submitted through an online form. To submit online forms, go to [www.dsp.org](http://www.dsp.org), click on the Hub button at the bottom of the page. From here, you will login using your personal credentials. If you hold more than one officer position, you will need to select the position you wish to view the Hub as. To submit forms, you will click "Forms" from the left hand menu.

If none of these people are available for verification, please contact the Central Office for other possible options. For these items, the chapter will submit contact information for the verifier and the chapter’s District Director will follow-up with the verifier, if necessary, and approve the item via the Hub for CMP Credit.

Delta Sigma Pi Central Office

 Oxford, OH 45056

## **Automatic Approval**

Some items will be awarded credit automatically when the requirement is complete.

- Badges and Pledge Pins may be ordered through the Supplies Ordering Module in the Hub, by going to the Deltasig Shop available at [www.dsp.org](http://www.dsp.org) or by calling the Central Office at 513-523-1907. Once the item has been ordered and pledge/initiate numbers are verified on the Pledging Ceremony/Initiation Report, credit will automatically be awarded.
- National event attendance does not require any CMP submission, but registration for national events can be done online at [www.dsp.org](http://www.dsp.org) or by calling 513-523-1907. Once attendance is confirmed, credit will automatically be awarded.
- All chapters start with approval for no 90/60/45-day debt. Once the chapter's debt reaches 90, 60 or 45 days, CMP approval will be removed.
- Once the chapter submits completed applications for two Chapter Awards, not including COY, credit will be awarded.
- Once the chapter receives combined donations of at least \$1,000 to the Chapter Leadership Fund in a given fiscal year, CMP credit will be awarded.
- Once ten chapter/executive committee meeting minutes have been submitted, CMP credit will be awarded.

## **DEADLINES AND RESPONSIBILITIES**

### **Explanation of Deadlines**

There are two deadline types: suggested and final. Suggested deadlines are recommended dates to turn in items, whereas final deadlines are the last date an item can be turned in for credit on all levels of CMP. The dates have been standardized to the end of the fiscal year (June 15<sup>th</sup>), except for time sensitive and fee-related items.

### **Chapter and Officer Responsibilities**

The Chapter Management Program is a chapter responsibility. Even though the Vice President-Chapter Operations (VPCO) has overall responsibility to ensure CMP submissions are made in a quality and timely fashion, everyone in the chapter needs to be aware of the program and their individual roles in this process. It is important for all officers—and even all members—to know what items should be submitted and how to submit each. The VPCO should fully understand the CMP submission process and work with all officers and members to ensure reporting is done in a timely and accurate manner.

There are 10 nationally recognized chapter officers (President, Senior Vice President, Vice President-Pledge Education, Vice President-Finance, Vice President-Chapter Operations, Chancellor, Vice President-Professional Activities, Vice President-Community Service, Vice President-Scholarship and Awards, and Vice President-Alumni Relations). Your chapter might have additional officers or committee members that are better suited to submit specific items, but forms are only available to be submitted by the President, VPCO and the appropriate officer so additional officers and committee members will need to provide the information for the submission to the President or VPCO to be submitted.

Below you will find a listing of all chapter officers, except for the VPCO, and the CMP items that each officer is responsible (you may also refer to the Chapter Officer Packets available online at [www.dsp.org](http://www.dsp.org)). The VPCO is not listed separately because the VPCO is ultimately responsible for all CMP items. After the listings for each chapter officer, a complete listing of CMP deadlines is listed for general chapter members and for the VPCO.

University faculty play an important part in students' lives. Chapter members should thank the hard work of professors and other university staff through a faculty appreciation event for all faculty, not just faculty initiates. Faculty appreciation events also allow the chapter to promote the Fraternity and chapter events to faculty who might not know about the Fraternity. The faculty appreciation event could be anything from giving goodie bags to all faculty members to an extensive luncheon.

## Historical

### Year in Review

#### Description of Submission:

The chapter should keep historical records of the chapter for years to come. It is a good idea to have some sort of year in review to leave for future brothers. The chapter could compile a year in review by creating a yearly scrapbook, video montage, highlight reels or an “annual report.”

**How to Submit:** Year in Review Hub Form

Note: The chapter will submit contact information for the verifier, which should be a National Officer (Provincial Vice President, Regional Vice President, and District Director) or Chapter Advisor. The chapter’s District Director will follow-up with the verifier, if necessary, and approve the item via the Hub for CMP Credit. If none of these officers listed above are available for verification, please contact your Regional Vice President or Central Office.

**Due Date:** June 15

Note: This item should not be approved until close to the end of the school year to ensure that the chapter did indeed a review of the entire year.

# FAQs

## General

### **Should we submit CMP information even if it is late?**

Absolutely! The goal of the program is successful chapter operations—so late submissions are still valuable for chapter reference and success. Also, for the Accredited Chapter tier, chapters can still receive Accredited Chapter recognition even if some items are late as long as 95% of all submitted items are approved.

### **Who is responsible for CMP submissions?**

The VPCO has overall responsibility to ensure CMP submissions are made in a quality and timely fashion. Various other officers have responsibility to ensure certain areas of chapter operations are successfully completed. The VPCO should fully understand the CMP submission process and work with all officers to ensure reporting is done in a timely and accurate manner. Responsible/involved officers are listed with each section of CMP responsibility.

### **Why do I sometimes have trouble submitting a report and get an error message?**

There are many reasons why you might be receiving an error when you submit a report. When you receive an error message, please email a copy of the error message to [cmp@dsp.org](mailto:cmp@dsp.org) with a brief description of what you were trying to submit when you received the error.

### **Can one event be counted under more than one category? For example, if an alumni member presents at a campus wide professional event can it count as a professional event presented by an alumni member AND a campus wide professional event?**

Any professional or service event submitted will automatically count towards the required events for the Accredited Chapter level. On the professional and service event submission forms, you will have to indicate if you think the event qualifies for a higher level submission. Each event can only qualify for up to two higher level submissions. In the example above, the chapter would mark professional presentation presented by one or more alumni members and campus wide event. However, if the chapter also co-hosted this event with another collegiate chapter, the chapter would have to choose between two of the three qualifying activities.

## Accredited

### **What if my chapter doesn't reach Accredited Chapter?**

Failing to achieve Accredited Chapter should cause the chapter to review and evaluate its practices. Better planning, focus, effort, etc. will be needed. National volunteers and staff will monitor chapter progress and give increased attention to those chapters not meeting the Accredited Chapter level. Chapters not reaching the Accredited Chapter level in successive periods may be subject to formal assistance or discipline as per National Policy and Bylaws.

### **Why has an item been marked as "Pending Approval" for so long?**

Some items like Pledge Education Programs take a more thorough review by Central Office staff which might cause something to remain "Pending Approval." Items that are approved by volunteer leaders like your District Director or Regional Vice President might also take time to be reviewed as they are volunteers and must approve items in their spare time. If you notice something is "Pending Approval" for a long time, please contact [cmp@dsp.org](mailto:cmp@dsp.org).

### **Do I still need to submit an officer report even though the officer information has not changed?**

Yes, officer reports are due three times a year (fall, spring, and summer) even if no contact information has changed. The Fall Officer Report needs to be submitted between August 1 and within 14 days after the start of the fall term. The Spring Officer Report needs to be submitted between December 1 and within 14 days after the start of the spring term. The Summer Officer Report needs to be submitted between April 1 and within 14 days after spring commencement. Officer updates should also be submitted anytime officer information changes or needs updated. This helps to ensure that we can contact officers when necessary.

### **Why do we have to submit a fall officer report if it has the same information as the summer officer report?**

The chapter is required to submit 3 officer reports a year to ensure that Central Office has correct contact information for all officers. The summer officer report should contain summer or home contact information for each officer whereas the fall should contain fall or college contact information for each officer. It is assumed something will change, thus submission is required.

### **Why don't I have credit for the Pledging Ceremony?**

If you do not have credit for the pledging ceremony, make sure that it was submitted completely (a lot of chapters will report the recruits but won't submit the pledging ceremony report. If it has indeed been submitted, you might not have credit because it was submitted late (showing orange) or not all pledges completed their membership applications before the pledging ceremony. Please note that the pledging ceremony report must be submitted within 2 days after the pledging ceremony and all pledges need to complete their membership applications before the pledging ceremony to receive credit.

### **Why don't I have credit for Fraternity Conferences and Leadership Events?**

Credit for Fraternity Conferences and Leadership Events are entered by Central Office staff after the event takes place and attendance lists are verified. It sometimes takes several weeks after the event for this credit to show up. If it is past 3 weeks after the event and your chapter still does not have credit, contact [cmp@dsp.org](mailto:cmp@dsp.org).

### **Where do I find the Chapter Bylaws & Policies and Procedures template, and how do I submit them?**

It is suggested that chapters submit their bylaws by October 1, but they are not required to submit their bylaws to the Fraternity until June 15 every year. Templates to aid the chapter in completing the bylaws and policies can be found on the [Delta Sigma Pi Policies and Bylaws](#) page. The templates will be located at the bottom of the page under the "Collegiate and Alumni Chapter Governing Documents" section. Once the documents are completed, they should be uploaded through the Hub Form.

### **Why wasn't our strategic plan approved?**

Each officer must submit a strategic plan form for their position (except for the VP-Pledge Education who submits the Pledge Education Program). These strategic plans must then be approved by the Chapter President and then by the Regional Vice President. It is possible that the plan has not been approved for CMP credit because not all items have been approved by both. All strategic plan forms must be submitted and approved before credit will be awarded.

### **The final deadline for ordering badges is "before initiation." Does this mean the chapter can order badges the day before initiation and still receive credit for ordering badges?**

The final deadline for ordering badges is the day before initiation, but the chapter should order by the suggested deadline to allow for adequate shipping time. If the chapter waits until the day before initiation to order badges, the chapter will need to spend more for next day delivery and will also risk not receiving the badges in time for initiation.

**Does “ritual well-performed” mean the ceremony has to be performed word for word, or can we reference the ritual books?**

Ritual does not have to be memorized word for word, but it should be memorized enough so that the ceremony flows nicely without breaks or stops. It is at the discretion of the member verifying the ceremony to determine if it is performed well enough for credit.

**What if we can’t get someone to the initiation to verify the performance?**

There are numerous people eligible to verify memorization (District Director, Regional Vice President, faculty initiates, etc.). If the chapter has exhausted all options, the chapter should contact the chapter’s Regional Vice President or the Central Office staff for assistance.

**Recognition**

**Why do we have to submit a Membership Status Report?**

The Membership Status Report allows the chapter to report graduates and other member status changes (studying abroad, internship, not enrolled, etc.) to the National Fraternity so the chapter is not charged for these members in the upcoming fall/spring. It also allows the chapter the chance to update any contact information changes.

**How many alumni do we have to update to get credit for the Alumni Report?**

The chapter only needs to update contact information for 1 alumnus in order to get credit for the alumni report, however, it is very important to update this information so the chapter should always strive to find all lost alumni members.

**What is a New Member Orientation?**

A New Member Orientation provides newly initiated brothers an overview of ritual (both from initiation and meetings), expectations of brothers, chapter bylaws, chapter policies and procedures, and other general reminders.

**Who can verify items?**

Most items can be verified by the chapter’s District Director, Chapter Advisor, or Regional Vice President. The Annual Financial Review can also be verified by any accountant, alumni, or professor. If the chapter does not have a District Director, the chapter should have items verified by the Regional Vice President, Chapter Advisor, a faculty initiate, or an alumni member approved by the Central Office staff. If the chapter cannot find someone to verify certain items, it should contact its Regional Vice President or the Central Office staff.

**What is the difference between an Alumni Event and a Professional Event presented by 1 or more alumni members?**

An alumni event is any event (professional, service, social, etc.) where alumni members are invited to attend. A professional event presented by 1 or more alumni members is a professional event where one or more alumni members give a professional presentation. If other alumni members attend the professional event, the event can *also* count as an alumni event.

Ritual does not have to be memorized word for word, but it should be memorized enough so that the ceremony flows nicely without breaks or stops. It is at the discretion of the member verifying the ceremony to determine if it is performed well enough for credit.

**How will Central Office staff know if a fund was established for LEAD travel?**

The chapter must supply specific details about the travel fund including where the money comes from, how much is in the fund and how it is awarded to members.

**How does a chapter conduct a new alumni orientation if there isn't an active alumni base (or chapter) near them?**

The [New Alumni Orientation](#) video can be presented to the graduating seniors in the chapter to show them how to stay involved after they graduate. The National Alumni Development Committee has created a [PowerPoint presentation](#) available at [www.dsp.org](http://www.dsp.org) that can be presented to graduating seniors for credit.
